

Extended Deadline!

Electronic environment 2016 CONFERENCE

Final Call for Papers

April 19-21, 2016, Kistamässan, Kista Science City

Electronic Areas: EMC, ESD, energy storage and environmental engineering for electronics.

The Electronic Environment magazine again plays host of the EE Conference, a recurrent event, which now is organized for the fifth time in April 2016. This time EE 2016 is arranged in parallel with S.E.E 2016, the largest meeting place in Scandinavia for the professional electronics industry, at Kista Expo, Kista Science City.

At the Electronic Environment Conference 2016 the latest findings and solutions will be presented by Europe's leading profiles and industry experts.

The qualified lectures, workshops and panel discussions will create interesting new opportunities, opportunity to exchange experiences and having creative meetings where new ideas flows, Industry, government and academia meet – exciting encounters that generate new ideas and innovative solutions.

Take the chance to present your findings, research results and experiences for a very interested and specific audiences. Share your knowledge, spread the findings of new observations or forgotten experiences. Present new regulations and standards. Raise awareness or debate. Improve knowledge and experience, broaden the network of contacts and share your expertise.

Welcome to participate at EE Conference 2016!

Call for Papers

We are looking for lectures and workshops aimed at practicing engineers, designers and technicians, quality managers, test and certification functions and management.

We welcome suggestions for lectures in EMC, ESD, environmental engineering for the electronics and energy storage in the following thematic areas:

- Vehicles, Aviation & Marine
- Industrial environment
- Security & Defence
- Telecom
- Smart grids & DC network
- Power quality
- Testing & Simulation
- Standards & Certification
- Quality assurance
- Extreme & Explosive environments
- Other suggestions are also welcome!

We would like to have a brief description of your presentation (abstract) by **September 14**. The final manuscript should be submitted at latest Dec. 31, 2015. Further instructions will be communicated in connection with the acceptance letter in October 2015.

Deadline for abstracts: **September 14, 2015**

Send to mail: info@justevent.se

We welcome your abstract!

Workshops, oral presentations and poster presentations

The sessions are divided in various thematic categories so that the conference participant can follow a specific interest. The participant may also choose to simply follow a specific field, selected from EE 2016's various electronics fields.

The conference program will be extended by an additional day in relation to previous years, to a total of three days. The first day is devoted to workshops, and the remaining days for oral and poster presentations.

The oral presentations are scheduled for 30 minutes each, including set-up time, and time for questions. Poster presentations will be presented during the last two days. Presentations will be held in Swedish or English.

Speakers will receive:

- Full conference documentation
- Refreshments, lunch and conference dinner
- Free participation on the day of the presentation

Contact information

The program committee looks forward to your abstract! If you have questions please feel free to contact us by phone +46 31-708 66 80, or by email info@justevent.se

Partners of Interest:

EE Conference 2016 - in parallel with S.E.E 2016

Electronic Environment Conference 2016 will be held in parallel with the Nordic region's largest meeting place for the professional electronics industry, SEE, 2016 at Kistamässan, giving unprecedented conditions; an incredibly exciting venue and the possibilities for interesting meetings for both conference participants and exhibitors will be large – a dynamic meeting place for new knowledge, new contacts and new business.

Kistamässans strategic location and accessibility in the heart of Kista Science City, is an excellent forum for professional meetings and creative events. Kista is a region in transition with a constant flow of people, impressions and experiences.

Kista Expo is centrally located in the north of Stockholm and its proximity to Arlanda and Bromma airports creates favorable conditions for international contacts.

In just 12 minutes by commuter train from Kista Expo you are in the heart of Stockholm. With close proximity to the E4, subway, commuter trains and buses Kista Expo can be reached easily regardless of origin. Directly adjacent to Kista Expo there are plenty of parking places.

You'll find more information at www.electronic.nu
